About Us

We are a team of technocrats joined hands in 2018 to form SST TECHNISOLUTIONS PVT LTD to take up activities in which we are conversant and confident and with an intention to provide services to our clients where in the quality of the activities are maintained on the high order and achieved within the set time frame.

Our team consists of experienced persons in the field of Labour Facilitation, Human Resources, Manpower Organization, Project Management, Manufacturing and Operation & Maintenance of Steel melt shop, Rolling Mills, Strip Mills, Tube Mills and Cold Rolling Mills.

Presently, we are managing Plants at various levels in different locations across India.

Services

Operation and Maintenance

We operate Steel Meltshop (Induction Furnace and Casters), Rolling Mills, Strip Mills, Structural Mills, Tube Mills and Cold Rolling Mills at various level of engagement. Our emphasis is on rendering industrial asset management solutions as a whole rather than offering standalone measures. Clients too welcome such a holistic approach as it helps them to focus on the core areas of the business.

Our focus is on:

- Day-to-day operations, including production planning, estimation, scheduling and execution
- Plant performance monitoring, diagnostics and efficiency enhancement
- Technology evaluation and spares management
- Health, safety and environment management
- Asset management planning
- Site management and house keeping

Preventive and Shutdown Maintenance

- AMC in mechanical, electrical & instrumentation
- Management and evaluation of maintenance contracts, including SLAs
- Plant performance and efficiency enhancement
- Comprehensive maintenance of facilities, plant equipment and utilities
- Annual maintenance and overhauling
- Remote monitoring from expert centers
- Provision of spare parts, tools and tackles, mobile equipment and consumables
- Repair and refurbishment of major components

Fabrication and Erection

We cater majorly to the requirements of Steel Meltshop Billet, Slab Bloom Project

Our Services Includes:

- Design
- Detailed Engineering
- Procurement
- Fabrication (Shop and Site) with/without Materials
- Supply
- Erection
- Commissioning Support

Manpower Outsourcing and Technical Staffing

We do recruitment and Outsourcing for personals required for steel sectors

We have a huge data base of candidates which will never make feel shortage of relevant manpower. We believe in Mix Culture, our database has candidates from different location of India, it helps an organization to learn new things and to expand its Ideas.

- Degree Engineers
- Diploma Engineers
- ITI Technicians
- Managerial Staffs
- Production Staffs
- Maintenance Staffs
- Purchase & Procurement Staffs
- HR & Admin Staffs
- Housekeeping Staffs
- Operator Level Staffs
- Other Operational Staffs & Office Staffs

We source the people with mix culture to reduce the Absenteeism & Industrial Relation issues from semi skilled to highly skilled like Technicians, Operators, Supervisors, Engineers, Site Managers as well as Experts and put them into our Payroll for Annual Operation & Maintenance (O&M) Contract and Manpower outsource services on contractual model with Short Term & Long Term basis. We also appoint our Own HR Supervisors & Technical Supervisors at our Client's premises to monitor day to day work activities of our deputed employees according to client Planning and Designing.

We provide well trained workforce which can lead the organization towards the success. We are having a wide range of options available for our clients and as per their needs we can offer highly skilled, semi skilled and un-skilled manpower. We believe in highest compliance and follow all statutory compliances

Payroll Outsourcing and Statutory compliances

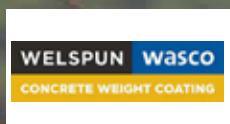

Post-COVID, under new normal & disruptions we have brought forward our Payroll management services we do payroll outsourcing on fixed service charges

Advantages of outsourcing Payroll Services :

- Save on time & Cost
- Improve data Security
- Access the latest technology
- Avoid penalties and mistakes
- Become 100 % compliant and all compliance-related regulations are managed under a single entity
- Single window solution for all compliance and payroll processing matters
